PRODUCT OVERVIEW & APPLICATIONS

Pomegranate Juice Concentrate is a versatile B2B fruit ingredient produced from carefully selected, ripe pomegranates through controlled juice extraction, clarification and vacuum concentration. The result is a concentrated product with a deep red to purple color, a characteristic sweet-tart taste and a higher soluble-solids content than single-strength pomegranate juice.

Its concentrated format supports more efficient transportation, storage and industrial handling while giving manufacturers greater control over fruit content, acidity, color and flavor intensity. Suitable for global B2B supply with flexible packaging and quality-controlled specifications.

PRODUCT SUMMARY

Made from ripe pomegranates

Non-GMO

No added sugar

No preservatives

Quality-controlled batches

ORGANOLEPTIC

Aroma	Characteristic natural pomegranate aroma
Taste	Characteristic fruity, sweet-tart pomegranate taste

PACKING & STORING

Aseptic bag packed inside a food-grade steel drum

Storage: follow product label and TDS; some aseptically packed product may require frozen storage at approx. -18°C

Customized packaging available according to order volume and destination requirements

APPLICATIONS

Juices & Nectars

Multi-Fruit Beverages

Sauces & Glazes

Dairy Preparations

Frozen Desserts

Confectionery

TECHNICAL SPECIFICATIONS

1. PHYSICAL & CHEMICAL ANALYSIS

PARAMETER	SPECIFICATION
Brix at 20°C	65 ± 1 °Bx
Titrateable Acidity (as Citric Acid)	4.5 – 7.5 % w/w
pH	2.5 – 3.8
Single-Strength Reference Brix	Approx. 16.0 °Bx
Colour Index (A520/A430)	≥ 0.6 at 15 °Bx
Turbidity	≤ 100 NTU at 15 °Bx*
HMF (Hydroxymethylfurfural)	≤ 20 mg/kg at 15 °Bx
D/L-Lactic Acid	≤ 0.5 g/L
Foreign Matter / Seed & Peel Fragments	Absent
Appearance	Homogeneous, viscous concentrated liquid

2. MICROBIOLOGICAL ANALYSIS

PARAMETER	SPECIFICATION
Total Plate Count / Mesophilic Aerobic Bacteria	< 1,000 CFU/g
Yeast & Mold	< 100 CFU/g*
Heat-Resistant Mold Spores	Not Detected / 25 mL
Coliforms	Absent / 1 g
E. coli	Absent / 1 g
Thermophilic Acidophilic Bacteria (TAB)	Absent / 1 g
Salmonella	Absent / 10 g

3. ADDITIONAL QUALITY & COMPLIANCE

PARAMETER	SPECIFICATION
Pesticide Residues	Complies with applicable destination-market MRLs
Heavy Metals	Complies with applicable destination-market regulations
Mycotoxins / Contaminants	Complies with applicable destination-market regulations
GMO Status	Non-GMO / Documentation available upon request
Added Sugar	Not Added
Preservatives	Not Added

4. STORAGE & SHELF LIFE

- Storage: follow product label, TDS and batch documentation
- Some aseptically packed product may require frozen storage at approx. -18°C
- Shelf Life: refer to product label and batch documentation

Ingredient: Pomegranate Juice Concentrate

* The above values represent typical commercial specifications for Pomegranate Juice Concentrate. Final specifications may vary depending on pomegranate variety, origin, crop, colour grade, production batch and customer requirements. Actual analytical values are confirmed by the relevant Certificate of Analysis (COA).
